

GEAR FEST UK

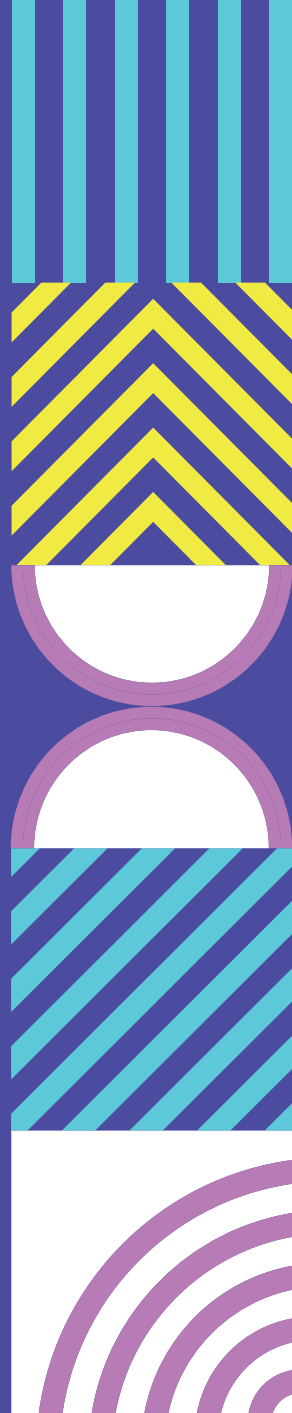

MUSIC STUDIO EQUIPMENT SHOW

Welcome to GearFest UK. We hope that you'll have an amazing time seeing the latest and greatest music studio equipment. Most importantly, this show is all about connecting with other producers, recording engineers, and musicians. Don't be scared to say hello to the person standing next to you, they might be your next collaborator!

Make sure to visit the areas at Vinyl, The Gallery, The Marquee, Wellness, and head up the stairs to another huge area of exhibitors. You'll be amazed by the surprises that the TYX holds - and you can hear your first ever Dolby Atmos mix! Grab food and a drink from Campfire, geek out on music equipment, and enjoy the day out.

Great to have you here,

Tileyard & Sound On Sound.
